Live Text on iOS 15

Mail Privacy Protect

Mail Privacy Protection

- An option that prevents tracking pixels from capturing a lot of data about the email recipient
 - The operating system being used
 - What kind of email client opened the message
 - Screen resolution
 - What time the email was opened
 - Whether any links were clicked through
 - The recipient's device IP address

Apple ID

Manage your Apple account

Apple ID

Remember me

Apple ID Enhancements

- Account Recovery Contacts
- People you trust that can help you reset your password and regain access to your account
- Digital Legacy program
- People that can access your account and personal information in the event of your death

iCloud+

Private Relay

Hide My Email

HomeKit Secure Video

iCloud Enhancements

Features for anyone paying for iCloud storage

- Private Relay
 - Safari browsing is encrypted and hides your IP address, location, and browsing activity
- Hide My Email
 - Creates unique, random email addresses that forward to your personal inbox so you can send and receive email without having to share your real email address
